

VoiceInk

Native macOS menu-bar voice dictation. Local Whisper + LLM. No cloud, no subscription.

Download VoiceInk 0.5.007

v0.5.007 · 13 MB · macOS 13+ · Apple Silicon · [How to install →](#)

What it does

- Hold **Fn** anywhere, dictate, release — text is pasted at the cursor
- Whisper large-v3-turbo for transcription (runs locally on your Mac)
- Qwen 2.5 for punctuation & light editing (also local)
- Transcribe audio/video files from the menu bar
- Custom replacements dictionary for tricky names

Auto-update

After install, use the menu-bar item «Check for Updates...» to get new releases.
